

# Step by Step Guide

#### To get started please make sure you have the following-

- Active email address and password
- Strong internet connection
- laptop/computer or a device with a webcam/camera
- Any contact names/details of friends or family you wish to Skype

#### Step 1

Click on the Start button and Launch Internet Explorer - Look for the

e

icon.

#### Step 2

Type the web address ( URL) <u>www.Skype.com</u> into the address bar.

Click on the Sign In button (circled in Purple). You can also click on Download Skype

(circled in green) to download it on to your Desktop or laptop Computer.

#### Step 4

Click on the device you would like to download on. For this guide we will use a Computer device. Click on **Get Skype for Windows.** 

Skype will download onto your computer, you must then activate it by clicking on a few tabs.

#### Step 6

A pop up box will then appear requesting whether you want to make changes to your computer, to complete the download you much click **Yes.** 

# Select your language and click on "I agree-next" 👺 Updating Skype Not far to go now ... Select your language: English You're just a few steps away from using Skype. For future updates, Skype may automatically install the latest version to your computer without you having to do anything. By installing this application, you agree you have read and accepted Skype's Terms of Use and ] agree - next Skype's Privacy Policy.

-

#### Step 8

Top Tip- Unclick these **two boxes** to ensure your home page does not change, then click on **continue**.

This box will then appear, it may take a few minutes to complete.

You can see that this now appears on your contact list, when the icon turns green, the contact will have accepted you request.

#### Step 27

To make a video call - simply click on any contact you have and click on Video call.

See example of someone calling you on your Skype Account. Click on **Answer** to accept call.

#### Step 28

You will then be able to view the person you are calling and vice versa. This will only work if you both have webcams on your laptops/computers or are working off a smart device such as an Ipad.

See below an example of a video conversation. You can increase the sound by click on this icon,

If only one of the contacts have a webcam, you can still hear each other but you will only be able to view the person with the webcam, they will not be able to see you. You will be able to view the person here.  $\searrow$
